

PUREVU®

Budget
Blinds®

All PureVu® Shutters are "Best for Kids" Certified

SUPERIOR SHUTTERS

10 REASONS WHY...

1. REINFORCED ENGINEERED STILES

Multiple layers of wood are bonded together. Our proprietary process to strengthen the stile core – engineered to provide a lifetime of durability and stability

2. PRESCRIPTION WOOD CONDITIONING®

The moisture level of the shutter is customized to its final destination. The unique drying process helps reduce post-installation shrinking and swelling

3. MORTISE AND TENON JOINERY

Found in heirloom furniture, our mortise and tenon joints help your shutters withstand decades of shear stress and racking forces

4. QUARTER SAWN LOUVERS

Not the cheaper flat-sawn wood, our quarter sawn milled louvers have a tighter grain – for more resistance to cupping, twisting and warping

5. RECESSED MAGNETS

Our magnets are embedded – so they won't protrude, which can cause light leakage. For a more dependable system with tighter panel closure, hidden from view

6. INVISIBLETILT™

Louvers move in unison and are perfectly aligned for maximum light and privacy control

7. MULTIPLE HAND SANDING AND FINISH

Multiple sequences of sanding and finishing for a more durable and silkier finish

8. DECORATIVE ACCESSORIES

Decorative accessories to meet every need, including panel pulls, various hinge finishes

9. FSC-CERTIFIED WOOD

Providing shutters from our forests to your windows

10. INDUSTRY LEADING WARRANTY

Limited Lifetime Warranty plus a 5-Year No Questions Asked Warranty Program

BUILT FOR HEALTH

All PureVu® window furnishings are free from lead and soluble heavy metals such as cadmium and arsenic. They either meet or exceed international standards for off-gassing of harmful chemicals.

The Optimal™ Antimicrobial Finish safeguards your shutters from accumulating airborne germs. Proven to be effective in killing and inhibiting the growth of disease-causing bacteria such as salmonella, e-coli and more, it's available in Cameron™ and Hampton™ Shutters

BUILT FOR SUSTAINABILITY

Monterey™ is made from wood composite MDF and is one of the most eco-friendly materials, with up to 95% of every tree being utilized.

Cameron™ Shutters and Normandy™ Hardwood Blinds are made from Phoenix Wood®, a tree that regenerates from its stump, making it an environmental champion for sustainable forestry.

Hampton™ is made from White Teak logged from a large reforestation project that is now a FSC-certified forest, recognized around the world as a beacon of responsible forestry.

SUITABLE FOR EVERYDAY LIVING

Monterey™ shutters are constructed with a solid MDF core – real wood in an advanced state – for incredible density and strength. The patented Polypropylene Coating on the Monterey™ Shutter is superior to traditional paints because it is extremely durable and robust.

- Has better consistency and durability than a regular wood shutter
- Has better heat resistance than vinyl and PVC shutters
- Will not fade and yellow with exposure to the sun
- Will not chip or crack over time
- Will not stain and is easy to clean

SUITABLE FOR EVERY DESIGN

Monterey™ Plus, Cameron™, and Hampton™ Shutters are available in a wide variety of combinations to meet any design need.

- A wide selection of solid paint colors
- A wide selection of wood stains featuring 2 different wood grains
- Multiple frame options
- Specialty shapes to fit all windows
- Track systems for sliding doors
- French door solutions
- Award-winning motorization

AUTOTILT™ FOR BI-FOLD SHUTTERS AND MULTI-FOLD SHUTTERS

The PureVu® exclusive option automatically tilts louvers to a closed position when shutter panels are stacked to the side. Not only is the solution elegant and convenient, it prevents the louvers from getting crushed when the panels are folded together

- Comes with InvisibleTilt™, the gear-driven system that tilts without the need of a tilt rod
- Includes high-end ring-pull hardware for convenience and a classy touch
- Available on bi-fold and multifold applications, with or without track, in Dawson™, Cameron™ and Hampton™

INCREASE YOUR VIEW

PureVu® Shutters feature innovations that give you more control in creating a more unobstructed view.

InvisibleTilt™, a breakthrough louver tilting mechanism, is engineered to enhance your shutter ownership experience. It features no protruding moving parts and no tilt rod to block your view, yet ensures that louvers move in unison and are perfectly aligned for maximum light and privacy control. Available in all programs.

42" Wide Panels create flexibility for fewer panels in a window opening allowing an expansive view. Available in Cameron™ and Hampton™.

ANY WINDOW ANY SHAPE

THE MOST REFINED OPTIONS

Perfect Tilt® RF AUTOMATE YOUR HOME

- Open and close all panels at once

Regular

SmartPrivacy™

With Performance™ Faux Wood Blinds featuring SmartPrivacy™, you're in control even on the widest applications. It's built for any environment – extreme light, heat, moisture or salty air – at temperatures up to 15° higher than industry standards.

- Industry's #1 faux wood blind
- Award-winning SmartPrivacy™ provides tighter closure and concealed route holes for extra privacy and less light leakage
- Colors last longer (over 2,000 hours of UV testing)
- Withstands temperatures of 135° for industry leading heat deflection
- Moisture-resistant, fire retardant and lead free
- Patented child/pet safe cord release device reduces entanglement risk
- Insta-Lock™ mechanism locks blind precisely at any position effortlessly
- Advanced tilting mechanism for smooth operation and reduced pull force

Discover natural elegance with Normandy® Hardwood Blinds featuring quarter-sawn Phoenix Wood® and SmartPrivacy™. The distinctively-grained and eco-friendly solution provides sleekness and quality that's immaculately refined.

MADE TO ORDER FOR EVERY NEED

Want your windows covered even faster? Now you can.
Ask for Performance™ Essentials. It's our flagship Performance™ Faux Wood Blinds - but in less time.

ETECK™ FAUX WOOD BLINDS

The world's most technologically advanced faux wood blind.

- Valance free, has no valance returns, and has no valance parts or clips to lose, break, or become tilty.
- Slats are lighter, more durable, with better heat deflection and colorfastness
- SmartPrivacy™ comes standard, our concealed rout design
- Comes with our safety cord release device
- Reengineered anti-bowing bottom rail
- Smarter, more "giving" brackets to make installation up to 20% faster
- Headrail has a built-in light block.

 - 9/16" single
 - 3/4" single cell
 - 3/4" double cell
 - 1 1/4" single cell

Decoflex™

VISIONARY DESIGNS EXCEPTIONAL TECHNOLOGIES

SMARTFIT™

SMARTFIT™

The award-winning system adjusts from the top or bottom without dangling cords in the middle. The ultimate in streamlined looks, it sits closer to the window edge for less light leakage and a cleaner profile.

SMARTFIT™ FOR SLOPED WINDOWS

SmartFit™ for sloped windows is a streamlined solution for skylights that won't droop in the middle or have dangling cords.

PATIO DOOR VERTICAL

Provides gentle light filtering, privacy and insulation to patio doors by gliding into place. It's available with an additional sheer fabric in Patio Door Day & Night.

DECOFLEX™

DECOFLEX™

Decoflex™ mounts directly onto the door to provide light block on all sides – as if the shade was built into the door.

BELLEVUE™

Inspired by the cascading forms of a roman shade combined with the versatility of a blind, BelleVue™ offers new ways to experience open views – a captivating twist to illuminate your style. Sleek tailoring is paired with an innovative dual-option lift technology. BelleVue™ puts a fresh spin on traditional shades – super soft while totally adjustable. For whatever the décor, BelleVue™ gracefully hits the mark between modern chic and practical function.

YOUR VIEW ANY WAY YOU ROLL IT

BelleVue™ offers versatile light and privacy control in a range of stylish patterns, textures, and opacities. The shade's contouring fabric sections roll-up for an innovative view through experience while adding cascading textural interest to your window opening.

CERTIFIED
BEST FOR
KIDS
